SUMMARY

Computer Science undergraduate specializing in AI & ML with hands-on experience developing full-stack applications across frontend, backend, APIs, and databases. Experienced with React.js, Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, authentication, and web application deployment.

SKILLS

Frontend: React.js, Next.js, JavaScript, HTML, CSS, Bootstrap

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, MySQL, Redis, Neo4j

Deployment: Vercel, Render, Docker

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Postman

EXPERIENCE

Research Internship

Machine Learning Research Intern

June 2025 – July 2025
SRM University AP

- Analyzed the UCI CKD dataset through data cleaning, feature encoding, normalization, and sampling.
- Trained Decision Tree and Gaussian Naive Bayes models and evaluated their classification performance.
- Achieved **97.5% accuracy and 0.9993 AUC** with Naive Bayes while identifying key CKD predictors.

PROJECTS

ScriptVision: AI Cinematic Breakdown Tool | GitHub | Live Demo

2026

- Created a full-stack platform for converting screenplay PDFs into structured scenes and production breakdowns.
- Exposed REST APIs for PDF processing, scene extraction, file handling, and structured content generation.
- Secured authenticated workflows with MongoDB persistence and integrated external AI services.

MemoryOS: Digital Memory Reconstruction System | GitHub

2026

- Established a document and media platform for organizing fragmented information into searchable memories.
- Combined semantic, keyword, and graph-based retrieval to support contextual queries.
- Integrated FastAPI, Celery, Redis, PostgreSQL, ChromaDB, and Neo4j for processing and storage.

EcoShare: Community Ride Sharing Platform | GitHub

2025

- Delivered a ride-sharing platform connecting drivers and passengers through a secure booking workflow.
- Handled authentication, ride management, booking, and requests using Node.js and Express.js.
- Structured user and ride data in MongoDB through schemas and backend workflows.

EDUCATION

SRM University, Andhra Pradesh

2023 – 2027

B.Tech in Computer Science and Engineering (AI & ML)

– CGPA: 8.25

CERTIFICATIONS

MongoDB Certified Associate Developer

April 2026

Oracle Certified Professional Java SE 17 Developer

February 2026
